The platform gives you quick and easy access to the materials needed to gather all the data needed for the application submission. Plus, you will be able to connect with others in the cohort, post questions to them and your mentor, and upload files if you have you'd like to share.
- When you commit to studying with Paulette, there is no doubt you will be a better coach as every single one of her clients attests to this in their testimonial.
- Simply put, this credentialing program puts you on the fast track to accelerate your coaching skills so **YOU** can become the **BEST** coach you can be. ***There is no other credentialing program as thorough.***
